

Long Beech California

Saturday, 14 July 2007

Saturday July 13

We decided to change our next stop from Hermosillo, Mexico to

Long Beach, California .

There was a TV crowd waiting at the airport to cover our flight around the world. After the on site interview at the airport, they requested for us to go to their studio for a one hour live show.

After the show, another station wanted to interview us on their sport program. We did not get much rest that night.

A fellow Iranian pilot who has been following our flight around the world was at the airport to meet us, but due to our delay could not wait. However he picked us up that night and we had a drink together. We had a flight of two on our departure next day.
